

Hello YXE Vision Families,

We are excited to announce that we have been included in Phase 1 of the Re-Open Saskatchewan Plan announced by Premier Scott Moe. This means **we will be able to resume providing vision care services to all patients starting on Monday, May 4.**

At that time, **all our offices will resume normal business hours.** Please visit our website (www.yxevision.ca) to book an appointment online or to view our office hours and contact information.

Should you have any urgent eye concerns, please continue to contact our office as we are still available for emergency care in the interim. We are happy to discuss any questions or concerns you may have over the phone if you are unsure if you should be seen during this time. Please feel free to call us at (306) 664-2638.

Rest assured our team is hard at work ensuring proper office protocols are in place for everyone's safety, including physical distancing, the use of personal protective equipment, and cleaning and disinfection protocols. To assist with our efforts to keep everyone safe, we kindly ask that all patients attending our clinics for any reason please wear a mask or other face covering. We will be following the guidelines laid out by the Government of Saskatchewan in the Re-Open Saskatchewan Plan, as well as the guidelines of the Saskatchewan Association of Optometrists.

It feels as though a lot has changed recently, but rest assured one thing that has not changed is our commitment to caring for you and your family. We look forward to seeing you soon!

The Doctors and Staff of YXE Vision Group
